

Licensed Landscape Architect

Move your career as a licensed landscape architect to the next level. Take your designing experience and start managing million dollar national level projects that can be seen or experienced by millions of people. FourFront Design Inc is looking for a licensed (CLARB) Landscape Architect to join our professional team. This engaging and busy position works closely with clients, contractors, and interdisciplinary team members to successfully design outdoor spaces for commercial, federal, and municipal clients throughout the US. Responsibilities include:

- Project Planning and Management, including consulting with the client, understanding contractual commitments and expectations, completing site analysis and planning, coordinating due diligence and quality assurance, overseeing project from design through construction.
- Creating regional planting designs that incorporate local codes, topography, physical structures, plants, sustainability concerns, aesthetics, and public usage criteria.
- Using Autocad, MS Office Suite, and Adobe solutions to create and modify large format drawings

FourFront Design Inc offers a flexible, team-based work culture. Our employees enjoy working between home offices or at one of our office locations, and can be full time remote. We are physically located in the Midwest, yet our projects take us throughout the US. We enjoy a solid workload with a full pipeline into the future. FourFront is a Woman Owned Small Business, as well as a Service Disabled Veteran Owned Small Business.

Salary Range: \$55,000 - \$85,000 annual

Travel: Occasional airline and ground transportation to job sites required.

Benefits: Health, dental, life, disability, ID & legal protection plans, savings plan
